GLOBAL FOUNDATION

AMERICAS

- My Block, My Hood, My City (Chicago, IL)** – Expanding youth engagement programs for black and brown youth from underserved communities across Chicago
- Love Beyond Walls (Atlanta, GA)** – Increasing access to sinks to give people experiencing homelessness the ability to wash their hands during the pandemic
- The Nature Conservancy (Cusco, Peru)** – Implementing strategies to improve water quality, sanitation and hygiene in the Piuray Ccorimarca micro-basin
- Black Culinary Alliance Global (New York, NY)** – Advancing programs to better support healthy, mindful eating and drive systemic changes to improve food access in underserved communities
- Student Conservation Association (Washington, DC)** – Advancing skills development and green job opportunities for young people in communities facing environmental injustices
- Water.org (São Paulo, Brazil)** – Conducting landscaping assessments to support affordable access to clean water for low-income communities
- Food Forward (Los Angeles, CA)** – Optimizing procurement and delivery strategies for food hubs recovering from the COVID-19 pandemic
- Harvest Against Hunger (Seattle, WA)** – Increasing access to nutritious foods by expanding capacity with partner gleaning programs, food system organizations and indigenous communities
- National Environmental Education Foundation (Washington, DC)** – Expanding to communities in critical need of maintaining their green spaces and waterways

EMEA

- ACE Charity (Nigeria)** – Improving access to quality education for children and empowering women with vocational skills for income generation in communities that have seen significant impact from the pandemic
- Ecimir (Russia)** – Developing an interactive lesson to educate young people about the UN's Sustainable Development Goals with a focus on the environment
- Eco-Soap Bank (Africa)** – Empowering women to rescue and recycle soap that would otherwise be sent to landfills and redistributing to local at-risk communities
- International Rescue Committee (Jordan)** – Aiding refugees and communities in economic recovery following the COVID-19 pandemic, in addition to developing new opportunities for income generation
- Lligam (Spain)** – Supporting economic independence for women and their children experiencing domestic violence during the COVID-19 pandemic.
- Springboard (United Kingdom)** – Supporting disadvantaged individuals with transferable skills who have lost their jobs as a result of the pandemic, with the aim of strengthening job opportunity and securing employment
- Wildlife and Environment Society of South Africa (South Africa)** – Activating the "WESSA on Wheels FEED Program" to deliver curriculum-support services and nutritious meal options to school students and teachers impacted by the COVID-19 pandemic

APAC

- Emmanuel Foundation (Indonesia)** – Providing personal protection equipment to at-risk communities and training community members on safe sanitation and hygiene practices for long-term resiliency following the COVID-19 pandemic
- Habitat for Humanity Fiji (Fiji)** – Improving access to sanitation and hygiene in by installing toilets, hand-washing facilities and resilient roadside market shelters for families in need
- KARI Foundation (Australia)** – Empowering Aboriginal communities who have been hard hit by the pandemic to obtain employment, start businesses and continue education opportunities for long-term success.
- Musubie (Japan)** – Expanding access to free or low-cost meals for families and children in need across Japan
- The Nature Conservancy (China)** – Implementing projects to protect and preserve Qiandao Lake, the major source of clean water for the Yangtze River Delta economic region
- Planet Water Foundation (India)** – Delivering AquaSan systems in India, a mobile unit enabling schools and communities to deliver surface disinfection and safe drinking water, together with hygiene education programs.
- Scholars of Sustenance (Thailand)** – Supporting food rescue and redistribution efforts to communities severely impacted by COVID-19, in addition to strengthening the organization's educational programs.
